JINKS, A COMPLETELY NEW ANGLE IN COMPUTER FUN.

The planet Atavi has puzzled mankind for centuries... beautiful, mysterious and seemingly underdeveloped. How can something so amazing remain such an enigma? Now you shall find out as you guide your scout probe across the planet's surface in a unique exploratory research mission. But don't expect the planet or its inhabitants (whatever they may be) to take your interference kindly.

JINKS, UN ASPECT DES PLAISIRS DE L'ORDINATEUR ENTIEREMENT NOUVEAU

La planète Atavi a intrigué
l'humanité pendant des siècles...,
belle, mystérieuse et
apparemment sous-développée.

Comment une chose aussi
fascinante peut-elle rester si
énigmatique? C'est ce que vous
allez découvrir dans cette unique
mission d'exploration, à bord de
votre sonde de reconnaissance
que vous guidez à travers la
surface de la planète. Ne vous
attendez pas, cependant, à ce que
la planète ou ses habitants, quels
qu'ils soient, prennent votre
intrusion à la légère!
